- Utilize advances in information technologies to improve the effectiveness of instruction, services, and administration.
- Improve the district's capability for economic development and community services by strengthening partnerships with other educational institutions, business, labor, and government to enhance "seamless" educational opportunity and continuity for students.
- Tailor programs and services to meet the needs of the students and communities served by the three-campus district.
- Increase the district's college going rate by reaching out to underrepresented and underserved populations and designing programs, services, and approaches relevant to the diverse segments of the community.
